

WebsiteSpark Program Details

Microsoft® WebsiteSpark™ is designed to ignite the success of professional Web developers and designers. The program enables you to get software, support and business opportunities from Microsoft at no cost during the 3-year membership term.

Program Benefits

WebsiteSpark provides access to a technology offering for development and production hosting of websites. Once enrolled, you can download the following software from Microsoft:

- For **design, development, testing and demonstration of new websites** – for a total of up to three users per Web design and development company:
 - Visual Studio Professional
 - Expression Studio (1 user) and Expression Web (up to 2 users)
 - Windows Web Server 2008 R2
 - SQL Server 2008 Web Edition
- **For production use** – that is, to deploy and host new websites developed using Program software – using a total of up to four processors per Web design and development company, of the following (physical or virtual) dedicated servers:
 - Windows Web Server 2008 R2
 - SQL Server 2008 Web Edition

In addition to software, Microsoft WebsiteSpark offers Web development and design companies the opportunity to:

- *Get Business Opportunities:* Get opportunities to expand your customer base and drive new business through showcasing your capabilities and connecting with partners, by featuring your talents in Microsoft marketing and business networking vehicles.
- *Get Support and Training* - benefits include:
 - 2 professional support incidents
 - Online support through Managed newsgroups on MSDN is no longer available. Priority support is now provided in MSDN forums and other Microsoft online properties
 - Access to broad community support through connections with Network Partners, Hosting Partners and peers with complementary services and technologies

Program Features

1. *Eligibility Requirements:* An eligible Web design and development company must have the following characteristics at the time of joining:
 - **Company:** A professional service firm whose primary business is providing Web development and design services for its clients, with
 - no more than 10 members (including owners and employees).
 - **Individual:** An individual that performs web-related development and/or design services for its current customers or plans to provide such services to its customers in the future. An Individual does not have his/her own company and/or does not work for a web design or development company.
 - Companies and Individuals do not have to be members of the Microsoft Partner Network (MPN) prior to joining the Program, but enrollment in MPN

is a feature of Program participation. Companies and Individuals will agree to the terms of the MPN Community Agreement when they accept the WebsiteSpark Agreement. We will compare the Company's or Individual's contact information entered by the Company or Individual during its WebsiteSpark Program enrollment process with

2. *Term:* Eligible Web development and design Companies and/or Individuals can participate in WebsiteSpark for up to 3 years. On the first and second anniversary of initial enrollment, they must update their enrollment (e.g., confirm they haven't gone public and their ownership hasn't changed).
3. *Fee:* There is no cost for Web Pros to join WebsiteSpark or receive its benefits.
 - o To terminate its enrollment, a Web Pro must notify WebsiteSpark (WebSpark@microsoft.com).
4. *Special Offers:* Web development and design Companies and Individuals in WebsiteSpark may also be eligible for additional products or services offerings (from Microsoft or others) from time to time during their tenure in the Program. In general, Web Pros enrolled in WebsiteSpark will be notified of Special Offers when they become available as well as the terms and enrollment process to take advantage of them. Special Offers are not part of the WebsiteSpark program benefits, and participation in Special Offers will be governed by the separate terms and conditions for each Special Offer (including licenses, and fees if any).
